Goals

What are they trying to achieve?

- Strives to build meaningful emotional connections.
- Explore the chatbot's emotional intelligence and capabilities.

Motivations

Why do those outcomes matter?

- Values deep conversations and emotional closeness.
- Wants to connect and understand others better.
- Enjoys exchanging personal stories and experiences.

Pain points

What makes the experience difficult?

- Dislikes conversations that lack depth.
- Finds generic responses disengaging.

Behaviors

What do they actually do today?

- Turns to the chatbot in his spare time.
- Likes to chat when he wants to express himself creatively.

Needs

What must the experience provide?

- Follow up questions and natural conversational language.
- Thoughtful and contextual responses.
- Values the ability to build upon his previous discussions without repeatedly explaining himself.
